

SME Forums

[Overview](#)
[The Team](#)

To foster knowledge sharing, collaboration, and process improvement across the Tata group, TBExG has established dedicated forums in critical business areas. These platforms bring together subject matter experts from various Tata companies to share best practices, insights, and experiences. By facilitating knowledge transfer and networking, the forums empower participants to drive operational excellence and contribute to the Group's overall growth.

Through quarterly best practice sharing sessions, these forums provide opportunities for participants to learn about innovative processes, systems, and tools employed by other Tata companies. By witnessing first-hand the implementation of globally recognised best practices, participants can identify potential areas for improvement within their own organisations. Additionally, the forums foster a strong network of like-minded professionals, enabling knowledge sharing and collaboration beyond organisational boundaries.

There are four forums namely: Tata Supply Chain Forum, Tata Data Excellence Forum, Tata Treasury and Investment Management Forum and Tata Internal Audit Forum.

Tata Supply Chain Forum

Tata Data Excellence Forum

Tata Treasury and Investment Management Forum

Tata Internal Audit Forum

Participants at the Tata Supply Chain Forum hosted by Tata Motors on July 4, 2024
