

TBExG launches new Cybersecurity Excellence Web Module

The Tata Business Excellence Group (TBExG) has launched the inaugural Cybersecurity Excellence Web Module on Tata Tomorrow University, marking a significant step in advancing cyber awareness and preparedness across the Tata group. The self-paced digital course is designed to strengthen the collective understanding of cybersecurity in today's interconnected business environment.

Why cybersecurity matters

In an era of accelerated digital adoption, spanning cloud services, IoT, AI/ML, and enterprise platforms, cyber threats are increasing in scale. For a diverse and expansive ecosystem like Tata, ensuring robust cybersecurity is critical to safeguard customer trust, protect data and intellectual property, and preserve business continuity. The new module reinforces the message that cyber vigilance is not limited to IT teams but is a shared responsibility across all functions.

Module overview

The Cybersecurity Excellence Web Module has been developed to make complex cybersecurity concepts simple, accessible, and relevant for all Tata employees—not just limited to IT professionals. The module integrates global best practices, practical case studies, and scenario-based learning, ensuring that the content is engaging and directly connected to reflect everyday business challenges.

Key features include:

- Structured Learning Framework aligned with the TCS Blue Tick Cybersecurity Framework
- 11 core control areas
- Real-world case study
- Interactive knowledge checks
- Practical guidance
- Completion certificate

Inclusive learning for all functions

Cybersecurity is no longer the sole responsibility of specialised teams. Every employee — in HR, Finance, Operations, Sales, Customer Service, or IT—interacts with digital systems and plays a vital role in safeguarding the organisation. This module emphasises that cybersecurity is a shared responsibility and equips every Tata employee with the awareness to identify risks and act as the first line of defence.

The Cybersecurity Excellence Web Module is now available to all Tata employees on Tata Tomorrow University. The module can be accessed using this link: [Cybersecurity Excellence Web Module](#).

By investing a short time in this self-paced course, employees can strengthen their digital awareness while contributing to a safer and more resilient Tata ecosystem.
