

BE Heads Forum

The Business Excellence (BE) Heads Forum is a networking forum created by Tata Business Excellence Group (TBExG) for business heads of Tata companies and serves as a platform to share thoughts and best practices, brainstorm on challenges, and network with peers. The BE Heads Forum enables business leaders in Tata companies to engage with peers on an ongoing basis. It also serves as a platform to benchmark processes and outcomes for all Tata companies.

The BE Heads connect and interact through various modes, like webinars, global as well as regional face-to-face meets. In addition, the BE Heads also utilise the best practices portal, EDGE, to connect with each other.
